November Parenting Tip

Tip – Show not tell.

Parents, stop telling your children what they are doing wrong, and show them. Telling children to STOP doing bad things isn't enough. As their guardian, you must show them the consequences that goes with their actions. Saying, "Stop staying out late, son," isn't the same as taking your son to the funeral of a child killed by late night gun violence. Let your child see himself in a casket and I guarantee you, he'll be coming home on time!
