

DID YOU KNOW
By Cedric Dean

Did you know any correctional staff member may recommend to the Warden the approval of an inmate for a lump sum award of Extra Good Time? Such recommendations must be for an exceptional act or service that is not a part of a regularly assigned duty: an act of heroism; voluntary acceptance and satisfactory performance of an unusually hazardous assignment; an act which protects the lives of staff or inmates or the property of the United States; (This must be an act and not merely the providing of information in custodial or security matters) a suggestion which results in substantial improvement of a program or operation; or which results in significant savings.

The Warden may make lump sums awards of Extra Good Time of not more than (30) days. If the recommendation is for more than 30 days, and the Warden agrees, the Warden will refer the recommendation to a higher authority, who may approve the award.
