To Whom It May Concern,

I have worked with Inmate Dean since his arrival at USP McCreary in June of 2009. He is the tutor for my Pre-GED classes. Dean tutors four classes that meet Monday through Friday for an hour at a time. He helps develop lesson plans and teaching methods that are particularly effective for reaching the inmate population. His positive attitude has helped motivate students in the classroom and he has established himself as a positive leader. As well, Inmate Dean has proven to have both the willingness and the ability to learn quickly. He is both organized and experienced. I believe that if Inmate Dean continues on his current path staying true to his beliefs and methods, then he would have much to positively contribute to both correctional settings and to society.

Sincerely,

A handwritten signature in black ink, appearing to read "R. McCaffrey".
